Dear Sir:- By the advice of the Presiding Bishop, we send you the accompanying papers for your information. This Work - one of the most important - as may be seen by the testimony which is borne to it, and which the Church has under her fostering wing to-day, - has been suffering because there have been no agencies for giving it the financial support which it needs and deserves.

After a thorough investigation We have determined to band ourselves together in a Guild, in order to carry forward all the objects of this Mission, and we most cordially and respectfully beg your influence and cooperation in this our endeavour to do a plain duty, which seems to be baiding on the conscience of this Church.

An early reply is earnestly solicited,

By the Committee

G. Hilliard Cooke Secretary,
